

Commercial Applicator Online Reporting

Features:

- Applicator accesses state data files on-line
- Data is housed by KRSNetworksm
- Applicators may review/change their records, until the State downloads the data on a specified, pre-determined date.
- Applicator has ample time to ensure that the data entered is correct
- Applicator ID and current information appears for verification purposes.
- Product applied can be searched by full or partial name or EPA registration number
- Applicator simply fills in the fields required by the state
- Dropdown menus speed up the data entry process
- Online verification of valid data
- Uses the same registration/licensing data derived from www.kellysolutions.com
- Multiple reporting capabilities for states
- Allows for quick data entry of tank mixes by only changing the product name and EPA identification number

Benefits:

- Saves data entry time for applicators and state employees
- Improves accuracy of data entry
- Makes use of state data that is available on kellysolutions.com
- Saves postage

Submit requested data to the state in an electronic environment.
