

Electronic Renewals

www.kellysolutions.com/erenewals

Features:

- Web-based process to allow registrants / licensees to renew products or licenses in multiple states with a single transaction and requires only one username and password for all states
- Uses state registration / license data published on www.kellysolutions.com (i.e. no data entry by companies)
- Facilitates electronic Document Submit and UPC Submit
- Paper-based submissions option still available for states not accepting electronic filling of supporting documentation
- Data may be integrated into an existing state system for greater efficiency requiring little or no investment by the state
- Funds transferred to state either by ACH transfer or paper check
- KRSNetworksm collects a small convenience fee from business users with no additional fees for submitting electronic documents or UPC's

Benefits:

- Drastically reduces the workload during busy renewal seasons
- Does not require states to be E-Commerce compatible
- Simple step-by-step process* eliminates costly mistakes
- KRSNetworksm forwards renewals to each state with a daily reconciliation sheet

Categories Include:

- Pesticides
- Feeds
- Seeds
- Pet Foods
- Fertilizers (including specialty)
- Animal Remedies
- Dealers / Business Licenses
- Applicator Certifications or Licenses
